Note: It is common to group works published as part of a collected works or multi-volume set under a single heading (for example, The Works of Jeremy Bentham, published under the superintendence of his executor, John Bowring, 11 vols., Edinburgh: William Tait, 1838–43), and then reference them in the text with their volume number. However, what this gains in space and reduced clutter it loses in clarity, as the distinctions between different specific works are then lost. Although I have chosen to list the works individually here, those which are published within a single volume or set of volumes are grouped together because they share the same author and date or range of dates.
